

**RED DOT**  
BUILDINGS

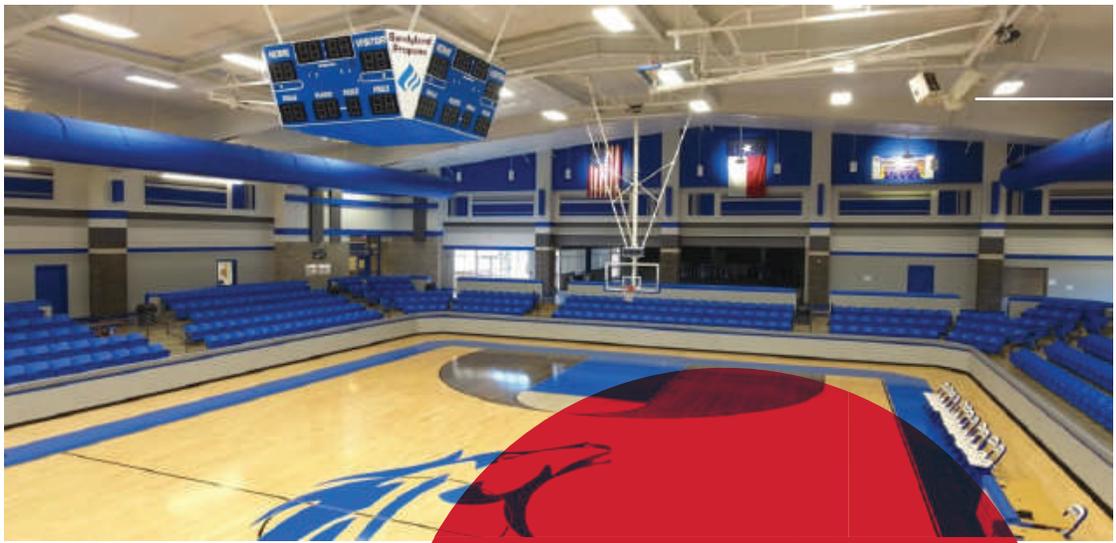

THE MARK OF QUALITY IN METAL BUILDINGS FOR OVER 50 YEARS

# Red Dot Marks Quality

On metal buildings of all shapes, sizes, and complexities, Red Dot offers design, manufacturing, and erection services with unmatched value and reliability. With some of the brightest, most experienced minds in our industry, Red Dot delivers comprehensive building solutions for projects ranging from shopping centers and athletic facilities to self-storage units and backyard buildings.

**For projects large and complex, quick and simple, or somewhere in between, look to Red Dot.**

# What Makes Red Dot Different

When you work with Red Dot, you get so much more than a steel building — you gain a valuable partner, dedicated to the success of your project from the estimate to the jobsite. Working alongside you each step of the way, our team of industry-leading professionals makes it their mission to deliver the exact solutions you need, exactly when you need them.

Our expertise extends throughout a project's lifespan — offering design, manufacturing, and erection services, Red Dot's comprehensive capabilities offer you a turnkey partner through the production and installation phases of your building project.

Whether you're an architect, an engineer, a contractor, or a developer, Red Dot offers customizable metal building solutions to meet virtually any need. Whether your project is large and complex, quick and simple, or somewhere in between, Red Dot can help you build it.

**You gain a valuable partner, dedicated to the success of your project from the estimate to the jobsite.**

# Who Red Dot Serves

As a single-source provider of metal building services, Red Dot has the products and solutions to meet virtually any need throughout the building process.

## WHO WE SERVE

## HOW WE HELP THEM

Architects and Engineers

- Value engineering
- Reduced lead times for building fabrication
- Erection services (if needed)

Erectors

- On-time delivery
- Minimal field modifications
- Easy to read drawings and details
- Rapid response and resolution for onsite issues
- Timely payments

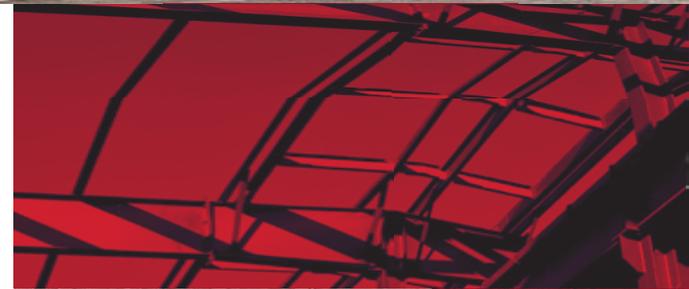

Consumers

- Technical guidance
- Design creativity
- Easy assembly
- Quick delivery
- Permit-friendly

## **Steel Building Solutions For Every Need**

Durable, attractive, sustainable, and cost-efficient, steel is one of the most popular options in commercial construction today.

**Strong and adaptable  
steel buildings for  
complex projects.**

### **Custom-Engineered Metal Buildings**

Red Dot specializes in complex custom engineered metal building projects, and our signature commitment to quality and service has marked projects both big and small for over 50 years. Combining state-of-the-art design, engineering, manufacturing, and erection services, Red Dot has all the necessary expertise and sophistication to be your single-source supplier for your next building project.

### **Hybrid Steel Structures**

Ideal for complex building projects, Red Dot's hybrid steel structures combine efficiency and strength for a durable, cost-efficient structure. Featuring Class A structural steel, hybrid buildings are ideal for upscale shopping centers, educational and athletic facilities, warehouses, and even multistory buildings.

## Structural Steel Buildings

Red Dot is an industry leader in Class "A", structural steel fabrication. Our success begins with a full-circle commitment to quality and service. Red Dot's capabilities include complete design, fabrication, and erection of your structural steel building all from our own IAS AC-472 manufacturing plant. All of our welders and fitters are qualified in compliance with AWS D1.1 and D1.3 codes of welded construction. In addition, Red Dot also has AWS Certified welding inspectors on staff.

## Red Dot Furnish And Erect Services

### Full-Circle Commitment For Any Building Project

For more than 50 years, Red Dot Buildings has proudly offered single-source solutions for your metal building needs, including manufacturing and erecting, all under one roof. This way, our customers can rely on Red Dot's signature level of quality from beginning to end.

## Why Choose Red Dot For Erection Services?

- Single building contract allows for greater quality, efficiency, and control.
- On-site service and inspections by Red Dot field technicians.
- Stringent safety requirements and guidelines.
- Performance and payment bonding available as needed

**Full-Circle  
Commitment**
